

INDRAJIT SEN

CIVIL ENGINEER

Mobile: +880-1859023644 Email: senindra629@gmail.com LinkedIn: linkedin.com/in/indrajitsen75/
Location: Dhaka-1229, Bangladesh

PROFESSIONAL SUMMARY

Forward-thinking and detail-oriented Graduate Civil Engineer combining a robust foundation in structural engineering with a strong specialization in agile project management and environmental sustainability. Demonstrates proven technical acumen in concrete mix designs and structural modeling, complemented by an active commitment to eco-friendly materials and climate resilience. Adept at steering cross-functional stakeholder coordination, optimization of resources, and data-driven execution to deliver cost-effective, high-quality, and ecologically sustainable engineering solutions.

EDUCATION

Ahsanullah University of Science & Technology (AUST) <i>B.Sc. in Civil Engineering CGPA: 3.617/4.00</i> Specialized focus on structural modeling, seismic performance, and advanced material testing.	2022 – 2026
Govt. City College, Chittagong <i>Higher Secondary Certificate (HSC) GPA: 5.00/5.00</i>	2018 – 2020
Chittagong Govt. High School <i>Secondary School Certificate (SSC) GPA: 5.00/5.00</i>	2016 – 2018

INTERNSHIP EXPERIENCE

CodeAlpha <i>Civil Engineering & Structural Design Intern (ID: CA/DF1/195359)</i> - Engaged in a structured internship focusing on advanced concepts in structural analysis and civil engineering design. - Applied engineering methodologies hands-on to build key technical competencies for real-world infrastructure projects.	Jul 2026 – Aug 2026
--	---------------------

RESEARCH & THESIS EXPERIENCE

Undergraduate Thesis AUST (CE Dept.) <i>Title: Numerical Modeling and Validation of Bare and RC Jacketed Frame using Fiber Modeling Method</i> <i>Supervisor: Dr. Debasish Sen, Associate Professor, Department of Civil Engineering, AUST</i> - Conducted advanced Nonlinear Static Pushover Analysis utilizing ETABS software to model and assess structural safety margins. - Evaluated structural deficiencies under localized seismic actions and engineered concrete jacketing retrofit mechanisms to alleviate soft-story structural vulnerabilities in urban layouts.	2025 – 2026
--	-------------

CORE TECHNICAL & PROFESSIONAL SKILLS

Engineering Tools	AutoCAD 2D, ETABS
Technical Core	Structural Analysis, Reinforced Concrete (RCC) Design, Steel Design, Concrete Mix Design, Cost Estimation, Retrofitting & Seismic Evaluation
Management	Agile Project Management (Scrum/Kanban), Inventory Optimization, QA/QC, Technical Documentation
Leadership Core	Cross-Functional Coordination, Idea Generation, Corporate Leadership, Strategic Communications

KEY ENGINEERING ACHIEVEMENTS

Champion - "CONCRETE CASTING" Competition | ACI AUST Student Chapter

- Secured 1st place out of 15 competing technical teams through precision application of concrete mix design principles.
- Optimized water-cement ratios, aggregate grading, and admixtures to achieve peak workability, durability, and target compressive strengths.

PROFESSIONAL CERTIFICATIONS & TRAINING

- **Quality Control of RCC Building Construction** – Continuous Learning | Hosted by Prof. Dr. Md. Jahangir Alam
- **Agile Project Management & Inventory Management** (Jan 2026) – HP LIFE Professional Certification | Qlearn | HP Foundation
- **Personal & Professional Skills to Become a 21st Century Corporate Leader** – WSDA New Zealand (8 executive modules)
- **Communication and Leadership Management** – Lead Academy | Endorsed by UN Global Compact & Assured by Pearson
- **"Idea Generation" Entrepreneurship Training** – Nestlé YEP Academy | Nestlé Youth Entrepreneurship Platform

LEADERSHIP & CO-CURRICULAR EXPERIENCE

Campus Leader | Interactive Cares

Jul – Nov 2025

- Represented the organization at the institutional level, spearheading youth engagement drives and managing student-led activities.

Career Summit Volunteer | Youth Skill Development Institute (YSDI)

Jul 2025

- Coordinated onsite logistics, registrations, and protocol support for speakers and 500+ attendees during a national summit.

SEMINARS & OLYMPIADS

- Attended seminar on **"Sustainability of Construction Materials"** organized by IUT (Keynote by Prof. Dr. M. Shamim Z. Bosunia).
- Participated in **"Bangladesh Environment Olympiad 2025"**.
- Participated in **"National Climate Science Olympiad 2024"** (Regional Round) | CVASU/BUET | IAAS Bangladesh
